

Studia Byzantina Upsaliensia

Studia Byzantina Upsaliensia is a peer reviewed series that publishes monographs, anthologies, editions, and translations in the field of Byzantine studies. The initiative for the series was taken by Lennart Rydén (1931–2002) and the first volume was published in 1986. Rydén's keen interest in hagiography soon came to characterize the series, but it was his intention also to include other branches of Byzantine research. In accordance with this aspiration, an expansion of the scope of *Studia Byzantina Upsaliensia* has been undertaken in recent years. The series thus aims at including all aspects of Byzantine studies, ranging from textual criticism and codicology to literary studies, art history, and material culture.
